

Which PathLight™ Is Right for You?

Designed for Private, Commercial and Government Use

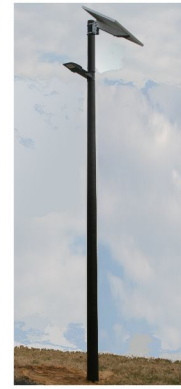

Affordable and durable battery-based system for pathways and enhanced security applications

PathLight™

Top of pole mount enclosure model

- Most economical choice
- More vandal resistant
- Best for flood zones or areas with more than 30-inches of rain per year

PathLight™ UE

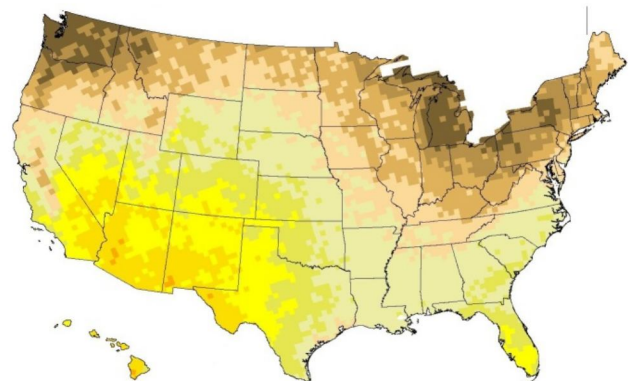

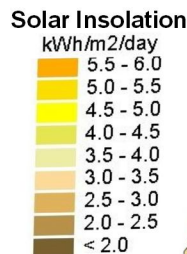

Underground enclosure model

- Cleaner visual design
- Lower loads, less stress on the base
- Best for custom design requiring higher battery capacity or for areas with more than 5 consecutive dense cloudy days in a row

What Model Works for Your Area?

1. Find your **Solar Insolation** from the chart
